
Grocery Tracker Final Project

Abishek Mathews

POSTGRE SQL SCHEMA

UI

The screenshot shows a web browser window with the address bar displaying `abishekmathews.shinyapps.io`. The browser's tab bar includes several tabs, with 'shinyapps.io' and 'Grocery Tracker' being the active ones. The 'Grocery Tracker' page features a dark header with the title and two tabs: 'Login' and 'Register'. The 'Register' tab is selected. The main content area contains four input fields for registration: 'Username', 'Password', 'Email', and 'Country'. A 'Register' button is positioned at the bottom left of the form.

UI

Limitations/Further Research

- Manual Input:
 - Improvements include barcode scanning or receipt parsing
 - Web Scraping for tracking price trends
 - Scrape data from websites like Doordash, Instacart, and Amazon Groceries to track prices in real time
 - Recommendation Engine:
 - Tracks user trends and notifies when to buy a certain good
-
